

## THE PROPELLER ACADEMY TRUST PRIVACY NOTICE

### General Data Protection Regulations 2018

We, The Propeller Trust, are Joint Data Controllers with Fitzwaryn School, for the purposes of the General Data Protection Regulations (GDPR). We can be contacted via either of our member schools, Fitzwaryn or Kingfisher School, at their published addresses.

The purpose of this document is to conform with your legal right to be informed about how the school collects, stores, uses or shares any information we hold about you or your child. For the purpose of this document, 'pupil information' includes any relevant details about parents, carers or persons responsible for the child.

#### Why do we collect and use pupil information?

Under Article 6 of the General Data Protection Regulation (GDPR), we collect and use information because we are legally required to collect some information about pupils and staff and we need to process this information due to our **legal obligation** (6,c) to provide an education to our pupils. This includes sharing information with exam boards, other schools and the Department of Education (DfE) where necessary. Our operation necessitates the use of **contracts** (6,b) including home-school contracts and contracts with staff and suppliers. In addition, due to our safeguarding responsibilities, we also collect information for the reason of **vital interest** (6,d) where the processing is necessary to protect someone's life, which includes CCTV footage. Occasionally we collect data as a requirement for a **public task** (6,e) which could include collecting evidence of our duty to educate children, in the form a learning or communication platform, or the capture of images/video/sound at school events, such as sports day and concerts/productions.

Under Article 6 and Article 9 of GDPR, where the above lawful bases do not allow us to collect essential personal information, we will use **consent** (6,a).

We may receive information about them from their previous school, the Department for Education (DfE) and Oxfordshire County Council. We hold this personal data to:

- support the learning in our school
- monitor and report on pupil progress
- provide appropriate pastoral care
- assess the quality of our services
- keep our pupils and staff safe
- comply with the law regarding data sharing

#### The categories of information that we collect, hold and share include:

Personal details (such as name, Unique Pupil Number and address), national curriculum assessment results, attendance information (such as sessions attended, number of absences and absence reasons), any exclusion information, where they go after they leave us, personal characteristics (such as ethnicity, language, nationality, country of birth and free

school meal eligibility), any special educational needs they may have as well as relevant medical information. CCTV is used for safeguarding purposes. Sensitive personal information may also be processed for safeguarding purposes (on the Legal Basis of **Vital interest**) at any time. In the case of Biometric data, we will obtain **Consent**.

### **Collecting pupil information**

Whilst the majority of pupil information you provide to us is mandatory, some of it is provided to us on a voluntary basis. In order to comply with the General Data Protection Regulations, we will inform you whether you are required to provide certain pupil information to us or if you have a choice in this.

### **Storing data**

An annual sweep of the school network will be used to ensure that data is removed from general access where appropriate.

Data is backed up onsite daily. Data held in financial software (excludes pupil data) is held remotely in 'the cloud' with GDPR compliant companies. We maintain a supplier compliance log to ensure that our suppliers are compliant and effectively safeguard your data.

We may hold data on encrypted USB memory (for example IronKey).

*Please refer to the 'Use of Videos and Photos Policy' regarding the creation and use of images/sound and video within the school.*

The school has robust processes in place to minimise the risk of data breaches. In the unlikely event of a Data Breach, the school has an internal Data Breach Procedure and documentation which would be followed. These documents are overseen by the school's Data Protection Officer (DPO). In the event of a data breach, we would act in accordance with the General Data Protection Regulations 2018.

### **Data Retention**

We hold pupil data for up to two years after they leave us, where information has been passed to another school, unless we are required by law to hold it for a longer period (SEN information for example). We hold all other pupil data until they reach 25 years of age. Data will be securely deleted in the academic year of their 25<sup>th</sup> birthday.

### **Who do we share information with?**

We will not give information about you or your child to anyone without your consent unless the law and our policies allow us to.

Where our school is involved in collaborative delivery with other schools and learning providers, pupil information may also be shared to aid the preparation of learning plans and the use of data to achieve the objectives identified above or with schools that the pupil attends after leaving us. We need to share information, on occasion with (but not limited to) Virtual Schools, Education Psychologist, transfer schools, Social Services Assessment Team, Children's Services, school governors/trustees, local authority support services including the NHS, police and courts as necessary, and other health related assessment teams including disability allowance. We are required, by law, to share some information with the Department for Education (DfE). This information will, in turn, then be made available for the use by the Local Authority. Additionally, the curriculum may require the use of third party web-based learning platforms, if GDPR compliant.

## **Why we share information**

We are required to share information about our pupils with the (DfE) under regulation 4 and 5 of The Education (Information About Individual Pupils) (England) Regulations 2013.

Whilst we share information as an ongoing school management requirement, which would include non-standard operational activity such as promoting the school and complaints/legal proceedings as required, we do not share information about our pupils with anyone without consent unless the law and our policies allow us to do so.

## **Safeguarding**

GDPR does not prevent, or limit, the sharing of information for the purposes of keeping children safe. Legal and secure information sharing between schools, Children's Social Care, and other local agencies, is essential for keeping children safe and ensuring they get the support they need. Information can be shared without consent if to gain consent would place a child at risk. Fears about sharing information must not be allowed to stand in the way of promoting the welfare and protecting the safety of children. As with all data sharing, appropriate organisational and technical safeguards should still be in place.

The NPD is owned and managed by the Department for Education and contains information about pupils in schools in England. It provides invaluable evidence on educational

performance to inform independent research, as well as studies commissioned by the Department.

It is held in electronic format for statistical purposes. This information is securely collected from a range of sources including schools, local authorities and awarding bodies.
