

Fitzwaryn School Careers and Post School Guidance

Information for Families

A person's 'career' is their journey through life, learning and, where appropriate, work. Every person's career will be different, but our aim is to support our pupils with learning the skills and knowledge to move beyond the school into a meaningful lifestyle where they are happy with how they spend their time, have an active part in their local community and have a good standard of living.

Within school, pupils take part in a range of timely activities presented according to their individual needs. This ensures that they are well informed and able to play an active part in determining their future pathways post school.

This guide is to assist parents with the steps to be taken to support their child as they move through the school to ensure a smooth transition into adult life beyond Fitzwaryn.

School staff endeavour to understand the challenges faced by parents and carers and will support you throughout your child's time at school to help determine their best options for the future.

Independent advice and guidance is available for every young person and their family throughout their time at school. Our Careers Leader is Hannah Gordon and she can be contacted by email at office.7027@fitzwarun.oxon.sch.uk or by phone on 01235 764504.

Young people in England are required to stay in education until the age of 18. This may be in full time education (6th form or college), on an apprenticeship/traineeship or in part time education accompanied by paid work/volunteering.

Year 9

Year 9 is a good time to start helping your child to think about their future.

From school year 9, the annual review will include a focus on preparing for adulthood.

Areas discussed will continue to include education, health, and community inclusion.

From this review onwards, choices for after Fitzwaryn will also be considered including employment and independent living.

Help your child think	The Buzz Quiz is a fun way to look at personality type and what might be

your child.	advice from your bank on an account that can transfer to your child once they reach adulthood.

Year 10

At the end of year II, your child will have the choice to remain at Fitzwaryn school and move into the Student Centre (sixth form) or move on to further education elsewhere. Young people are expected to stay in education until the age of 18 years. Special educational need provision is available for longer if required (up to 25 years), if your child can be seen to be making progress.

A common pathway is for young adults to spend 3 years at sixth form and then go on to college, although college courses can be started at age 16.

Explore post	16	options
--------------	----	---------

Open days are a good way to explore what is on offer, both in terms of the course and support available for your child. Some examples of courses are below.

General open days are advertised on the college websites, individual visits are also available — contact Hannah Gordon for guidance, help with contacts for arranging visits and for further options.

Year II

At the end of school year II, there is a choice on whether to remain at school or move onto education elsewhere.

All young people must stay in some form of learning until the age of 18 years.

Once a young person reaches the age of 16 years, provided they have the mental capacity, the right to make requests and decision is now theirs, rather than their parents (Part 3, Children and Families Act 2014, Mental Capacity Act 2005).

Year 13

At the end of this school year the Transition Annual Review will take place.

Students should be ready to state where they want to go after Fitzwaryn by the year 13 Transition Annual Review.

When firming up on what's next, consider all of the outcomes from the EHCP. Think about education and health, but also community inclusion and keeping in touch with friends, routes to employment and living arrangements. Will a young person remain in the family home or move to residential college or supported living?

In the Autumn term, complete any final visits to place that your child informed of your plans, especially if you are considering out of county placements. Discuss ideas for post 19 provision with class teacher and Careers Lead at the Autumn Term Parents Evening. Further support to help with visits / decision making can be provided if needed. Be clear as to why your choices will provide the best outcomes for your child, and why other options aren't suitable. When making decisions, try to look forward to where your child would like to be after their next destination. Inform annual review meeting of firm decision on post 19 destination. Inform annual review meeting of firm decision on post 19 destination. Vour choices for your child's next destination can be recorded in the parent / careers section of the EHCP report. This will inform the local authority SEN team when they begin to consult with colleges abut whether the college can offer a place early in year 14. Local college is the most straight forward case where funding for continued education and the provision of transport should continue. The SEN Team have a statutory duty to ask if the local college feels that they can meet your child's educational needs as this is likely to be the most cost effective option land they are using public money). However, if you and your child feel that the best option for your child is elsewhere, a clear explanation will be required along with why a local option would not be considered suitable. It is important to keep in touch with the SEN Officer during this year as this may enable you to agree the desired destination for your child without a need for challenging decisions and a possible tribunal later in the process. When your child turns 18, their social care will move from the children's disability team into the adults social or team. Health care (including the adults social worker will also support the family alongside the SEN officer and school with what your childs's day to day life will consist of once they lea		
placements. Discuss ideas for post I9 provision with class teacher and Careers Lead at the Autumn Term Parents Evening. Year 14

Your child is now in their final year at Fitzwaryn School. This school year will have an emphasis on supporting them to move onto their next destination (transition).

School staff will support individual students alongside staff who will be supporting them wherever they will go to next. This often includes staff from colleges visiting students at Fitzwaryn and then Fitzwaryn staff supporting students for transition sessions with whichever provider the student will move on to.

	,
During the Autumn term the SEN team will consult with colleges and other providers to check that they are able to meet your child's needs.	Having a clear plan as to where your child would like to go next is vital for this process to run as smoothly as possible. The SEN team will often consult with more than one possible provider for your child. They then have a statutory duty to update your child's EHCP with the name of their next education provision by the 31st of March in the year that they will leave Fitzwaryn. The SEN team will work with the adult social care team to determine funding for education, transport and the other support (such as clubs, activities and support from care services) that your child will require
During this year, your child will complete a CV with information about themselves ready for moving on from Fitzwaryn.	Where appropriate, students will complete work experience placements as independently as possible during this year. Where appropriate, families are encouraged to seek work experience or part time work for their child using their own community contacts. Information on work experience and volunteering can be found on the OXME website. Work experience OXME.INFO All students will continue to develop their skills for work during Student Centre's enterprise activities (coffee mornings, card production and sales, onsite staff lunch services).
Work on independent travel training will continue to promote as much independence as is appropriate within the local community	Independent travel training will continue to build upon skills developed in years 12 and 13. The aim is for each student to be as independent as possible in getting around the local community before they leave school. These skills can be supported outside of the school day.
If your child has chosen to move into employment support services are available	Oxfordshire Employment offer supported internships / traineeships (a supported scheme similar to an apprenticeship) and support into work Oxfordshire Employment Oxfordshire County Council Further opportunities can be found at Find a traineeship - GOV.UK (www.gov.uk) Local colleges also offer traineeship and apprenticeship schemes. The local Job Centre will have a named Disability Employment Advisor who can help your child with finding work.
