

Skills Passport – Key Stage 4 Qualification

The Skills Passport: A Personalised Curriculum Pathway

The *Skills Passport* offers a flexible, personalised approach to learning by allowing us to ‘pick and mix’ from over 150 qualifications. These Award and Certificate qualifications span Entry Level 1 to Level 1 and are designed to accredit a wide range of essential work and life skills.

The Skills Passport combines well-established qualifications with a new suite of options tailored to prepare students for life beyond school. This enables us to design a curriculum that reflects both the interests and the needs of our learners.

These qualifications run from **January to December** each year. When your child first joins the Senior School, they will begin their qualification work the following January. The programme follows a **two-year rolling cycle**, meaning that by the end of Year 11, students will complete either three or six qualifications—depending on whether they joined in Year 9 or Year 10.

Our Skills Passport qualifications include:

Year One

- Hospitality and Catering Skills
- Performing Arts
- IT User Skills

Year Two

- Creative Arts
- Introduction to Conservation Skills
- Science
