

## Home learning – Week 1

### India

#### **Focussed activities**

Listed below are the focussed activities we will be doing each day in school. They have been adapted slightly so that they can be accessed from home. Please of course feel free to adapt any tasks or create your own!

In the task box you will see brief written instructions for a task and the name of the worksheet (highlighted in green) that can be downloaded. Worksheets and plans will be uploaded onto the website weekly.

#### **IEP Target Work**

Each morning in class, pupils will have 10 minutes focussed IEP work. You can choose with your child each day which target they would like to work on and keep a record of their progress using the progress sheet. Although we will be doing target work in the mornings, please feel free to choose when in the day you would like to do this.

#### **Phonics**

Each day in class we will be doing 10 – 15-minute phonics sessions. A great way for your child to access phonics at home is through using phonics play. Please see log in details below and I will let you know your individual child's phonics level so you can access this online.

There is also a great website to look at that can address any queries you may have around the phonics sounds. This website can be found via this

#### **Reading**

Please try and read with you child as much as possible each week and keep a record using the [reading diary document](#) that is on the home learning page. There is always so much great reading achieved at home and we love hearing about this 😊.
