

English Activity 5. Make a page for a book about India. This week you need a picture of the animal you have been finding out (cut one out from the pictures earlier in the week) Then use your best handwriting to write one of the facts you found out this week. This will be a page in the book about India that you will have created by the end of term. If you have time, make a front cover too using the front cover page. Write the title 'India' and your name (you're the author) and draw a picture of the Indian flag.
