

Maths Group 2

Week 2

Calculator

L1: To use a calculator to answer mixed calculations

Solve these numbers using a calculator. Check your answers using apparatus to help you.

Question	Answer
$7 - 2 =$	
$3 + 3 =$	
$9 - 3 =$	
$10 - 5 =$	
$4 + 6 =$	
$6 + 4 =$	
$6 - 3 =$	

Now write your own question and ask someone to solve it. Check their answer using a calculator.

L1: To use a calculator to answer mixed calculations

Solve these calculations using a calculator. Check your answers using apparatus to help you.

Question	Answer
$5 + 1 =$	
$8 + 2 =$	
$9 - 3 =$	
$8 + 1 =$	
$8 - 3 =$	
$9 - 3 =$	
$7 + 2 =$	

Now write your own question and ask someone to solve it. Check their answer using a calculator.

L1: To use a calculator to solve missing number problems

Solve these calculations using a calculator. There is a video on the 'Miss Watkins Maths Group' home learning page to help you. Make sure you have an adult with you when you watch the video.

Question	Answer
$1 + \square = 7$	
$7 + \square = 9$	
$2 + \square = 4$	
$3 + \square = 5$	
$3 + \square = 6$	
$4 + \square = 7$	
$6 + \square = 4$	

Now write your own question and ask someone to solve it. Check their answer using a calculator.

L1: To use a calculator to solve missing number problems

Solve these calculations using a calculator. Check your answers using apparatus to help you.

Question	Answer
$\square + 2 = 5$	
$\square + 3 = 9$	
$\square + 1 = 2$	
$\square + 7 = 9$	
$\square + 2 = 6$	
$\square + 2 = 3$	
$\square + 6 = 9$	

Now write your own question and ask someone to solve it. Check their answer using a calculator.

Friday Challenge

This is a little bit of a silly but fun challenge. We had a go at this in school last week and it was GREAT fun!

Write the word 'hello' using your calculator.

Top tips

- You will need to turn your calculator upside down.
- The numbers on the calculator might look a little bit different to how you write them.
- Ask an adult to help!

On the next page, there is an upside down picture of the numbers on a calculator.
